AGREEMENT

THIS AGREEMENT, made at Fresno, in Fresno County, California, by and between Brough Construction, Inc., hereinafter called the Contractor, and the Malaga County Water District, hereinafter called the Owner.

The Contractor and the Owner, for the consideration hereinafter named, agree as follows:

ARTICLE I. The Contractor agrees to furnish all labor and materials, including tools, implements, and appliances required, and to perform all the work in a good and workmanlike manner, free from any and all liens and claims of mechanics, teamsters, draymen and laborers required for construction of

FIRE HYDRANT REPLACEMENT PROJECT CDBG PROJECT NO. 19451

All work shall be completed in strict compliance with the Plans, Drawings and Specifications therefore prepared for the Owner by Yamabe & Horn Engineering, Inc.

ARTICLE II. The Contractor and the Owner agree that the Advertisement (Notice to Contractors), the Wage Scale (Prevailing Wages), the Standard Specifications, the Special Provisions, the Plans and Drawings, the Addenda and thereto, and the Proposal hereto attached, together with this agreement, form the Contract, and they are as fully a part of the Contract as if herein repeated. In the event of a conflict between this agreement and any portion of the standard specifications or special provisions, to the extent of such conflict, this Agreement shall be controlling.

ARTICLE III. The Owner agrees to pay the Contractor for the performance of the Contract the sum of Two hundred fifty-eight thousand nine hundred sixteen Dollars and no Cents (\$258,916.00).

It being understood that said price is based upon the estimated quantities of materials to be used as set forth in the Proposal; and upon completion of the project, the final contract price shall be revised, if necessary, to reflect the true quantities used at the stated unit price thereof as contained in the Contractor's Proposal hereto attached.

ARTICLE IV. If the Contractor should be adjudged bankrupt, or if he should make a general assignment for the benefit of his creditors, or if a receiver should be appointed on account of his insolvency, or if he or any of his subcontractors should repeatedly violate any of the provisions of the contract, or if he or any of his subcontractors should repeatedly disregard laws, ordinances or the instructions of the Engineer, then the Owner may, upon certificate of the Engineer that grounds for termination exist, serve written notice upon the Contractor and his surety of its intention to terminate the contract. Such notice shall contain the reasons for such intention to terminate the contract, and unless within five (5) days after the serving of notice, such violations shall cease and satisfactory arrangements for correction thereof be made, the Contract shall, upon the expiration of said five (5) days, cease and terminate. The period for service of written notice begins upon deposit of the notice by prepaid postage into the United States mail, or by better means of service.

In the event of any such termination, the Owner shall immediately serve written notice thereof upon the surety and the Contractor, and the surety shall have the right to take over and perform the Contract, provided, however, that if the surety within ten (10) days after the serving upon it of notice of termination does not give Owner written notice of its intention to take over and perform, the Owner may take over the work and prosecute the same to completion by contract or by any other method it may deem advisable, for the account and at the expense of the Contractor, and the Contractor and his surety shall be liable to the Owner for any excess cost occasioned the Owner thereby, and in such event the Owner may, without liability for so doing, take possession of and utilize in completing the work such materials, appliances, plans, and other property belonging to the Contractor as may be on the site of the work and necessary therefore. In such case, the Contractor shall not be entitled to receive any further payment until the work

is finished. If the unpaid balance of the contract price exceeds the expenses of finishing the work, including compensation for additional managerial and administration services, such excess shall be paid to the Contractor. If such expense shall exceed such unpaid balance, the Contractor shall pay the difference to the Owner. The expense incurred by the Owner, as herein provided, and damage incurred through the Contractor's default, shall be certified by the Engineer.
